ABOUT

Pushpagiri Research Centre

Pushpagiri Research Centre (PRC) was established in 2010 as a Medical Research Centre that serves as the 'Central Research Facility' for various institutions under Pushpagiri Medical Society. PRC fosters in sustainable therapeutic regimens translating clinical research into innovative products, patents and publications in peer reviewed journals of repute. PRC is an approved Ph.D. centre by Kerala University of Health Science (KUHS), India. The Centre is also recognized as a Scientific and Industrial Research (SIRO) by the Department of Scientific and Industrial Research (DSIR) under the Ministry of Science and Technology, Govt. of India. PRC incorporates works related to clinical/medical and various translational research. PRC bears Institutional Animal Ethics Committee (IAEC) and animal house facility which is in accordance with CCSEA. The Institutional Review Board (IRB) is registered with DHR and CDSCO, Govt. of India that facilitates Phase- III & IV Clinical Trials. With active MoUs with International and National entities, both in government and private, PRC stands as a hub of interdisciplinary research excellence. Bioradiance is the annual conference series of PRC that serves as a beacon of research excellence for the Centre.

Kerala Academy of Sciences

Kerala Academy of Sciences (KAS) is a premiere professional body of scientists, academicians, technocrats, medical professionals, and science managers established in 1989, with its headquarters in Thiruvananthapuram, and has more than 750 life members. The major objectives of KAS are science popularization in the state, promotion of scientific temper and to provide an interdisciplinary platform for exchange of ideas among scientists and technologists. Towards fulfilling the goals the academy organises various programmes including outreach programmes school students, meetings for the general public and also international seminars on specialized topic, commemorative lectures, endowment programmes and observance of major science and technology days across the state of Kerala.

Bioradiance 2025

Pushpagiri Research Centre (PRC), in collaboration with the Kerala Academy of Sciences (KAS), proudly presents the 13th International Conference – Bioradiance 2025. This prestigious event will serve as a dynamic platform for scientists, researchers, healthcare professionals, and students to explore cutting-edge advancements in biochemistry, molecular biology, nanoscience, cancer biology, neurodegenerative disease, immunology, precision medicine, dentistry, phytopharmaceuticals etc. With the theme "From Molecules to Medicine: Bridging Biochemistry and Therapeutics", Bioradiance 2025 aims to foster interdisciplinary discussions that translate fundamental biochemical discoveries into clinical and therapeutic applications. The conference will feature keynote lectures, panel discussions, oral and poster presentations, bringing together leading experts to address contemporary challenges and innovations in biomedical sciences. A unique highlight of Bioradiance 2025 will be a special session on family resilience, emphasizing the intersection of medical research and community well-being. We invite researchers, academicians, and industry professionals to participate, present their findings, and collaborate towards advancing global healthcare solutions.

Thrust Areas

Drug Discovery and Development, Biologics and Biosimilars, Structural Biology and Drug Targeting, Metabolic Pathways in Health and Disease, Therapeutic Antibodies and Engineered Proteins, Bioinformatics, Cancer

Metabolism and Therapeutics, Tissue Engineering and Regenerative Biology, Neurodegenerative Disease Biomarkers and Treatments, Immunology and Inflammation, Precision and Personalized Medicine, Phytochemistry and Phytopharmaceuticals, Advancements and Trends in Modern Dentistry, Integration of Omics into Translational Research, Family Resilience

Who can Participate?

Undergraduate, Postgraduate, Doctoral Students from Life sciences, Medicine, and Allied fields; Postdoctoral Researchers seeking to present their findings or network with experts; Faculty Members and Academicians from Universities and Research institutions; Scientists and Researchers working in Biomedical, Biochemical, and Clinical Research; Medical Professionals and Clinicians interested in Translational and Therapeutic Research; Industry Experts and Representatives from Pharmaceutical, Biotechnology, and Healthcare Sectors; Policy Makers and Government Representatives involved in Health and Research Funding; Non-Governmental Organizations (NGOs) and Community Health Workers
